STATELINE RICHES IN JOHNNY MINES

Large Bodies of Gold Await Completion of Mill.

REPORT FROM COL. HEFFRON

Majestic's Evidence of Permanence-Actively Working Strong Force.

Col H. G. Heffron has returned from an extended trip to the southern part of the state in the interest of the Bingham Con, smelter in the capacity of ore Purchasing agent. While absent he visted Stateline, and while it is producing nothing but milling ore at present he speaks well of the camp. The Ophir he reports as running satisfactorily and the 10-stamp mill and cyanide plant at the Johnny will be complete before the first of the year. He examined the ore bodies of the Johnny and sampled their worth with excellent results. There is plenty of ore blocked out he says to keep the mill running for an indefinite period, and while the management claim an average of \$12 in gold to the ton of the great mass revealed, by panning from numerous places he found an average of \$30. The company has one large east and west vein and a number of cross veins of smaller dimensions which carry exceedingly high values in the yellow metal and he considers it a great property.

Col. Heffron also visted the Majestic at Milford, obtaining fine copper samples in quartz on the 400-foot level an ovidence he says of sales to a much evidence, he says, of values to a much greater depth. A shaft is now being sunk from this level to ascertain whether the ores will be sulphides or crides so as to determine the nature of the smelter needed for treating it. The Majestic is working a strong

THE DAY ON 'CHANGE, Sales Were Small With Prices Generally Maintained.

The transactions at the regular call and on open board at the mining exchange this morning were decidedly limited, the total sales aggregating on y \$19,200.63. Trading was confined chiefly to the lower priced properties, but buyers were found for 11 different stocks.

California sold best and found buy-ers for 8,600 shares at about 38 cents. Wabash and May Day were the next favorites registering sales to the extent of 2,300 and 6,600 shares respectively. The closing quotations follow:

FORTY YEARS AGO. Veteran Miner Tells of Early Locations in Utab.

Isadore Morris, a veteran miner of

Stah, this morning in speaking of the day being the fartieth anniversary of the establishment of Fort Douglas became reminiscent and gave some ineresting history of early mining in Utah. While Mr. Morris was a soldier under command of Gen. Connor, his di-vision did not arrive in Salt Lake un-til some menths later, and since that time Mr. Morris has exercised his eyes for mineralized ground. The first leral mining locations that were made in Mr. Morris says, were the Jo ine at Bingham on Sept. 17, 1863, by ay the same party located the he first ones recorded by Bishop Arel bald Gardner, the first mining record r of West Mountain district, Mr. Mo rls soon got an interest in these properties and the interest grew until h property was sold to Boston parties i 1870 for \$250,000, although not unt ree years later, when a smelter was ill, was the property a source of rev

ties which afterwards became famous

The Carisa yesterday contributed to the progress of the mining industry by uncovering a three foot ledge of ore in its wrokings. The find occurred in the Northern Spy ground on the 600 foot level. The ore shows copper, silver and gold in good values.

Ajax Annual Meeting. At the annual meting of the Ajax Mining company yesterday the management was strengthened by the admission of P. L. Kimberly of Sharon, Pa., into the official circle. The directorate now includes Thomas Weir, P. L. Kimberly, George A. Lowe, W. S. McCornick, James Ivers, John M. Burt and Henry M. Ryan.

Strike in Uncle Sam.

Aa two-foot streak of gold-bearing quartz which promises to lend substantial aid in making a paying proposition of the Uncle Sam has been encountered in that company's grounds. The find was made yesterday in a stope above the tunnel level in the north drift, and samples sent to the offices disclosed free gold to the naked eye. while with the gold were chlorides can rving good values in silver although assays have not yet been made course the uniformity and extent of the find have not yet been demonstrated, but the indications are most assur-edly favorable.

WESTERN MARKET LETTER.

Special Correspondence. Kansas City, Mo., Oct. 18 .- The big Two cars of concentrates from the majority of the 74,000 cattle received Mammoth arrived at the sampler this week were in thin flesh, not more than 15 or 20 per cent of the steers that arrived being suitable for beef. This preponderance of light stuff has put the market for inferior kinds of stockers and feeders in probably the wors condition of the season. Up to the middle of the week the situation was the low point, but since then receipts have been light, even for the end o week, and this has permitted a slight recovery, even among the down-ast kinds that have languished so

The best beef that comes now brings about \$7 or a little better, and none of that kind that formerly grought \$8 in 1840, and now has a membership or better, has been here for several | more than 12,000.

weeks. Considerable short fed, poorly inished stuff has been included receipts, and it has done better this week than last. The supply of quarantine cattle this week, as well as last, has been very much reduced, compet ing buyers to give more attention to range stuff on the native side, which has gradually improved each day this week. Especially on Friday range beef steers were in good demand at prices 15 to 25 cents higher than the irst of the week. Meaty cows also losed the week strong and 10 to 15 cents higher than the beginning. Range beef steers sold as high as \$5.60 during the week, and cows up to \$3.50. Bulk of steers \$3.75 to \$4.49 and cows \$2.65

About 29,000 head of stockers and and the number this week will be about the same. Nothing complimentary of the situation could be said up to Thurs. als of this class of stock have been exeedingly small, giving operators in his line a breathig spell, and whetling he appetites of such country buyers as were in the market. Evidences onew life in the trade could be discerned since Thursday, and not enough of the best kinds could be had. Even the poor kinds looked up a little, but are still in poor request. Stockers have sold as high as \$5 this week and feeders up to \$4.75, but the bulk of the stuff has moved at \$3.50 to \$4.25. Stock calves were off 25 cents, except for those of good quality.

The general cattle market is closing the present week with an upward ten-dency, and a satisfactory market is predicted for next week. It looks esecially promising for country kinds cattle, as next week is the week of the American Royal Cattle and Swine show, at the stock yards here, and among the thousands of visitors from country points, no doubt many will want to take home some cattle, putting off buying them till this occasion. The show itself is attracting widespread attention, and the entries include the cream of all the show herds of pure bred cattle of this country The show animals that have been tour ing the state fairs during the season are all concentrated here in grand competition for a final settlement of their claims to superiority. Four beef breeds will be represented here, also three breeds of hogs, and an Angora goat show will be a feature. All the auction sales during the week, also the goat people will sell some of their favorite breed at auction. No doubt the combination will be the greatest ever

held in the United States. Sheep receipts this week amounted to 58,000 head, the biggest run ever had Denver, Oct. 21.—Cattle—Receipts, bave advanced and are 10 to cents higher than a week age nand also, and the proportion of otal receipts of this class has smaller than formerly. Utah lambs have sold up to \$5.10 for big bands. Several loads of New Mexico lambs sold at \$4.50 and wethers, yearlings, at \$3.70; Utah fat ewes sold at \$3.10 and wethers at \$3.55. A bunch of Arizonas brought \$3.70. Feeding lambs sell from \$2.25, to \$2.50 and western feeders from \$3.25 to \$3.50 and western feeders from \$2.75 to \$3.25. It would look from these quotations that prices were very little hanged, which is true, but the feeling was better, and more sheep brough these prices. J. A. RICKART.

MISS WILLARD'S PICTURE.

Because it is Surrounded by Wine Colored Glass it Will be Removed. Denver, Colo., Oct. 20 .- The spectacle f a picture of the late Frances A. Wi rd, the great temperance leader, sur counded and encased in wine-colo glass, is too contradictory to be permit-ted. So say the women of the local W. . T. U. lodge, and that is why a memorial window in Parson Uzzell's churc will be removed and a new one placed therein. The Cassell W. C. T. U. lodge pluced such a memorial window in the parson's tabernacle and the unaesthetic of a deep wine color in which to encase the picture of the great temperance leader. The members of the Cassell union were aghast when they awake to the incongrulty of the thing and a new glass will be substituted.
